

SECRETARY TAFT IS GOVERNOR OF THE BIG ISLAND OF CUBA

American Provisional Control Was Assumed Without Any Bombast or Display.

A Flag Will Continue to Fly Above All Government Buildings Until There Is An Election of New Officers By the People.

COMPLETE TEXT OF THE PROCLAMATION

Citizens and Residents Asked to Assist the United States in the Work of Restoring Order, Tranquility and Public Confidence That Island May Be Restored to Independence.

Havana, Sept. 29.—An American provisional government assumed control of Cuba today when Secretary Taft's proclamation declaring the provisional government of the island was formally issued. The proclamation was published in the Official Gazette and thousands of printed copies of the document were distributed in Havana and elsewhere.

The terms of the proclamation caused general satisfaction especially among the moderate terms in which it is phrased. It states that the provisional government of Cuba is undertaken only on account of the crisis of the situation and its promise that the provisional government will be maintained purely for the purpose of restoring peace, order and public confidence until a permanent government is established. No person is to doubt the good intentions of President Roosevelt and his administration and there is no apprehension of any serious trouble or disturbance of any kind occurred last night. The business interests are gratified at the change of government. A striking feature of the provisional government is the fact that the Cuban flag has not been lowered. This establishes a precedent in provisional governments and states.

General M. Gomez and other conspiracy prisoners will be released immediately today in order that, as members of a committee representing insurgents they may sign an agreement with Gov. Taft that the will lay down their arms immediately. A commission headed by General Funston, will be appointed today to attend the act of laying down of arms on the part of the rebels. Mr. Taft is considering the disbanding of all the Cuban volunteers as they are regarded as being a needless expense under peaceful conditions. The governor has written to Mr. Belmont, ex-President Palmer's secretary requesting him in view of his valuable service to continue in the service.

Manuel Munoz, editor of the Spanish edition of the Havana Post, as arrested Sept. 20th, on account of the publication of an editorial criticizing the Palma government and who had since been held incommunicado was released today the court finding there was no foundation for the charge brought against him.

Secretary Taft's proclamation was signed by him, however, would be dangerous in view of the resignation of the cabinet. "Until further notice the heads of all the departments of central government will report to me for instructions, including General Rodriguez in command of the rural guards and other government forces, and General Carlos Roloff, treasurer of Cuba. "Until further notice the civil governors and alcaldes will also report to me for instructions. "I will ask all citizens and residents of Cuba to assist me in the work of restoring order, tranquility and public confidence."

W. H. TAFT, Secretary of War, U. S. Provisional Gov. of Cuba, Havana, Sept. 29, 1906.

Havana, Sept. 29.—Gov. Taft proceeded to the palace at noon to take over the government papers. During the morning Brig. Gen. Funston conferred with Mr. Taft regarding the location of the camps for the first division of the American troops to be landed here. The ships have not yet been selected. Funston will command the troops in Cuba.

Washington, Sept. 29.—While waiting to hear from the president at Barnstable, Acting Secretary of War Oliver, has issued orders for the first expedition of 5,500 soldiers to prepare to sail from Newport News as soon as possible. This is subject to approval by the president, but it is believed at the war department that as the president and Secretary Taft probably had a thorough understanding of what should be done in the present emergency before Secretary Taft sent his message this morning, calling for the troops, there will be no delay in securing the necessary

formality of the president's approval. Therefore the entire program is being put in execution. Quartermaster General Humphrey has been ordered to contract for the necessary transports to convey the troops to Cuba and the tariff managers of the railroads centering at Newport News have been instructed to prepare to entrain immediately the troops at the various army posts which have been selected by the general staff for Cuban service.

Washington, Sept. 29.—The situation caused by Secretary Taft's proclamation of today declaring a provisional government for Cuba is said to be without precedent in this country in that the Cuban legation is and has been for some days without any advice other than those contained in the press dispatches. In fact the legation is in a chaotic state.

It is taken for granted here that proper notification will be sent the governments of the world of the peaceable intervention of the United States.

Washington, Sept. 29.—The military secretary has received the following telegram from Captain Dwyer, commanding at Fern Morgan, at the entrance of Mobile harbor, dated yesterday:

"The post has been swept by a terrific storm, the entire post having been under water. Every building in the post is seriously damaged and some have been destroyed completely, including the pumping station, which furnished the water supply, ordinance store house, quartermaster store house, two primary stations, the quartermaster's dock and the main water tank. It is thought possible to have water transported from Mobile temporarily after the storm subsides. Request inspectors to be sent to ascertain and report upon damage. No one killed so far as known."

Rebels Gathering.
Havana, Sept. 29.—The governor of Santiago reports that the rebels are organizing and concentrating in the vicinity of the city of Guantanamo. He also reports that the rebels are collecting arms and horses. Bands are reported around Baracoa indicating that the eastern province is more rebellious than hitherto. The governor of Mantanzas reports that rebels are encamped near the city of Mantanzas and stealing horses. Rebels have been seen in the city of Colon.

PRESIDENT ON HAND.

Among the matters to be determined this afternoon will be the ratification of the list of judges and clerks in the city of Lima for this fall's election.

AMERICAN FISHERS

On Lake Erie Lodge Complain Against the Officials of Canada.

VESSELS ARE SEIZED.

Departments Have Started An Investigation of the Charges.

By Associated Press.
Washington, Sept. 29.—From time to time complaints are received by this government that American fishermen on Lake Erie are annoyed unwarrantably by Canadian authorities by charges that they are fishing in Canadian waters and the consequent seizure of their vessels. Such a complaint was received only a few days ago. The matter was taken up by the department of commerce and labor and the treasury department with a view not only of determining the merits of this case but also to devising some plans by which similar incidents might be decided. Officers of the revenue cutters suggested that a buoy or line of buoys be established in Lake Erie as a boundary line. The matter was referred to the department of state. The state department was informed today by the treasury department that the idea would be carried into effect.

DICK HYLAND TOO GOOD FOR HANLON.

By Associated Press.
San Francisco, Sept. 29.—Dick Hyland, of San Francisco, won a clean cut decision over Eddie Hanlon last night at the Sea Side club. Referee Jack Welch stopped the contest at the end of the thirteenth round with Hanlon hanging helpless against the ropes and unable to defend himself against Hyland's punches. The fight throughout was sublimely contested and replete with hard hitting and clever work by both lads. Hyland, however, landed the cleaner and more forceful blows and was never in distress. He devoted most of his attacks to Hanlon's body and kidneys, while the latter contented himself with right swings to the head and jaw, and right and left body punches at close range.

The indictments followed Uthoff's appearance before the grand jury for two hours. He arrived from Denver and expressed his willingness to testify at once. Uthoff was arrested and released on \$3000 bond.

MOBILE AGAIN CUT OFF FROM WORLD

Horn Island Lighthouse Swept Into the Sea and Keeper and His Family Went to Death With the Broken Structure—Number of Drowned and Property Damage Is Increasing With Each Hour.

By Associated Press.
Pensacola, Fla., Sept. 29.—The vastness of the destruction wrought by the hurricane Thursday is now being realized. Twenty-five persons are known to have been drowned.

Meridian, Miss., Sept. 29.—Information from Mobile by train confirms the report that Couden, Ala., Port, Ala., and Bayou, La. have been wiped off the map and that but one house of the Julius home, is left standing at Couden. Among the dead are some of the most prominent people of the coast, including the wife and youngest daughter of State Senator S. McRae, of Washington county, Major D. J. Stevens, Olive Werneth's wife and youngest daughter, and H. G. Turner, a leading lumber man. The entire west shore below Mobile is reported completely devastated. Twenty-five bodies have been recovered and 30 more were reported as known to have perished. Many bodies of negroes are included in this report. The negroes are terror-stricken and helpless.

The whites in the vicinity are said to be heavily armed and are patrolling the devastated district in order to protect property and compel the negroes to help in the salvage.

New Orleans, Sept. 29.—Hourly the accounts of the magnitude of Thursday's storm in Mississippi become more serious as the interrupted telegraph communication with that state is repaired. Town after town in the interior wired here that buildings had been blown down, lives endangered and crops blown flat in the fields.

Simultaneously there arrived an enumeration of an almost unbroken line of wreckage of shipping on the gulf coast in the direction of Mobile. However, all reports of this situation ended abruptly at a point about fifty miles west of Mobile. In addition to the shipping washed ashore on the mainland, first reports came in today of vessels wrecked or stranded on the chain of islands out in the gulf which form the Mississippi sound.

The little news which arrived from the Mississippi river delta added to the property damage reported there, but although the lower end of the delta had been submerged as far as the eye could reach and although steamers coming up the river reported that they passed floating household goods, no loss of life was reported. It may be several days before the details are learned about the fishing and oyster country in the low delta lands, which are isolated even from Quarantine and Pilottown, the only places on the lower river having telegraphic communication with this city.

Reports of the death of Captain Johnson, keeper of the Horn Island light house in Mississippi sound, and the death of his wife and daughter were brought by the first train today into New Orleans over the Louisville and Nashville road. This train brought passengers from New York and other eastern cities who had been held at Scranton, Miss., by the hurricane. They were taken to Ocean Springs in a tug and boarded the train there. They said that Horn Island lighthouse was swept into the sea by the wind and waves and that the keeper and his family went with the structure. News was brought to Scranton by Captain Barker, of the schooner Daisy, that the schooner had been wrecked on Horn Island with the loss of one of her crew. Captain Barker said that

Washington, Sept. 29.—Assistant Secretary Edwards has received a telegram from F. M. Rock, engineer in charge of the revenue cutter Albatross, dated at Mobile, September 28, as follows: "Alert was sunk at her berth at 7 o'clock this morning by the river steamer Nellie running into her during a violent easterly gale. Impossible to estimate damage at present."

Nothing has been heard of the revenue cutter Winona or the launch Penrose which were in the Mobile harbor at the time of the hurricane.

New Orleans, Sept. 29.—Damages of \$10,000 at Port St. Philip located about sixty miles below here on the Mississippi river, were reported today by incoming steamers. A portion of the levee erected to protect the fort against just such tides is reported to have been broken and allowed the inundation to flood. Now quarters under process of erection were also reported swept away.

Eligible in the 2:25 pacing stake are such horses as Autumn King, who won the \$1,000 stake at Kankakee, Ill., last week taking a mark of 2:15 1/4; Elsie, who took a mark of 2:09 1/4 at the Indiana state fair; Allan Jr., who won the pacing stake at Lafayette, Italia, who took a heat from the peerless Ardelle; and others.

This is the calibre of horses entered in the races here next week, and are only securable through the broad-minded management which has characterized the Lima association, of which J. C. Linneman, a steward of the American Trotting Board is president; J. W. Rowlands, vice president; Cashier Harry M. Moore, of the Commercial bank, treasurer and the indomitable worker and lover of horses; F. H. Baxter, secretary. The directors of the Lima Driving Park company are equally deserving of praise and including the officers named above, consist of Messrs. J. O. Hoyer, J. R. Sinclair, Dr. J. Cable, T. W. Mitchell, Dr. D. W. Steiner, S. S. Sealts and J. P. King.

The meeting next week carries with it \$10,000 in stakes and purses and attracts by the fast track, an unexpected feature has come to the man-

agement in the offer, which was immediately accepted from Charles "Doc" Tanner, trainer for the stable of A. N. Brady, the millionaire New Yorker, and owner of George G. (2:05 1/4) winner of the recent Inter-City Matinee Gold Challenge cup at Pittsburgh in August. Mr. Tanner has shipped George G. to the track here and will give exhibition miles to break the track trotting record of 2:14 1/4 held by Ashlandford, the Lima association will present a handsome solid silver trophy cup. Mr. Brady paid \$13,000 for George G. who went down the Grand Circuit as a winner under Ed F. Geers in 1904-'05.

The grey stallion, John Burns, by Bobby Burns, 2:19 1/4, now wears a rec-

ord at both ways of going. He has a record of 2:12 1/4 at the pace at Marietta, Ohio, won the 2:25 trot and record of 2:24 1/4 with It. Burns was formerly owned by McCormick, Wagner & Russell and then driven by Frank Hedrick, it being thought at one time he was a 2:05 possibility. An ailing leg put him out of it. The horse always showed a strong inclination to trot and was work a mile four years ago in 2:19 1/4 at that gait while Hedrick was trying to get him to work a mile pacing. He refused to strike a pace, and after being scored twenty times, he was allowed to trot and finished the mile strong in 2:19 1/4. He is now owned by Bellaire, Ohio, parties.

THE LIMA "M. & M."

A Two Thousand Guarantee by Merchants and Manufacturers.

Probably few people in the city who love to watch a light harness race know the exact nature of a stake, and the difference between it and a purse event. The most classic event of the Grand Circuit racing has been during the past decade what was known as the "M. & M." and was run each year with the opening of the Grand Circuit in Detroit. This year Detroit gave no meeting, and the stake which had its usual entries was contested at the Cleveland meeting.

The "Lima M. & M." is expected to be to half mile track campaigners what the Detroit M. & M. was to the Grand Circuit and will be made a permanent feature of the fall meetings here. In this event, horse owners name the candidates for the race on or before May 21; that is before their horses have started to racing or taken any marks. All trotters in the 2:24 class are eligible for entrance on May 21st. Candidates pay 1-1/2 per cent. of the value of the purse—\$2,000—for right to start. The payments are due in equal installments on May 21, June 21, July 21, August 21 and September 21. As the original entries develop, or go back, become injured, or unfit for racing, horsemen stop payments from month to month and withdraw. It was thus be seen that when the last payment has been made a horse has paid in \$25 for the right to start in this event, and stand to win first money of \$1,000; second, \$500; third \$300; fourth, \$200.

This "M. & M." stake is guaranteed by Lima merchants and manufacturers which means that if sufficient entries are not received, the value of the purse is nevertheless guaranteed to those entered. The Lima lovers of horses and public spirited citizens who this year guarantee this stake are as follows:

King & Gray, Nelson Shook, Z. A. Crosson, Ridemour & Halfhill, White Cafe, Nelson & Herbst, E. C. Dyer, J. F. Ewing, The J. M. Soalts Co., E. M. Goodink, F. E. Harman, G. B. Blum, J. W. Rowlands, W. B. Richie, Elgorman Clothing Co., Lima Natural Gas Co., The W. O. Ry. Co.

The Eligible Entries.
The eligible entries in this event, with the payments all made are the following high class horses:

JOHN A., W. N. and G. Albin, Springfield; OLIVER MOORE, Able & Conrad, Marion; LADY PERLINE C., C. G. Coplen, Piercetown, Ind.; DORMEATH, Oliver Cabana, Jr., Buffalo, N. Y.; ALERINE, Elmdale Farm, Birmingham, Mich.; DAISEY POINDEXTER, W. E. THE PACING STAKE.

For \$2,000 With a Consolation to Non-Winners.

Another feature stake of this fall's meeting is the \$2,000 pacing stake, underwritten by the Humane Horse-shoe company and offered to 2:16 class pacers, under the same conditions as the M. & M. for trotters.

However, in this event, only \$1,500 will be divided among the main winners, \$750 to the winning horse, \$750 to the second, etc. \$500 is set aside for a consolation race, open only to horses which start and do not win money in the main event, thus giving all entries eight chances to win money. All races will be mile heats, three in five, and will be declared finished at the end of the fifth heat, unless there be a tie for first money, in which event another heat will be raced between the horses so tied, to determine the winner.

Eligibles in the Pacing Stake.
That there will be a field of great horses contesting for this event is shown in the following list of eligibles, entered by the following well known stables of the central west:

IMA DAWSON, A. C. Baxter, Lima; MAY FERN, G. W. Curtis, Lima; BILLY COLE, E. J. Curran, Oil City, Pa.; SIGMA C., J. W. Chilcote, Williamsport, Pa.; JOLLY BIRD, Howard Edwards, Galena, O.; ALICE GEORGE, Loing H. B. Farr, Eaton, Ohio; GAIL S., Elton Gauntlett, Milan, Mich.; MARTHY C., J. R. Hooker, Covington, Ohio; LEGAL HAL, Mayer Stock Farm, Akron; AILEEN WILSON, Cliff Maple, Rushville, Ind.; QUEEN WILES, McCord Bros., McCordsville, Ind.; SIR DAIR, Vance Nuckols, Glenville; EMMA Y., C. M. Short, Springfield, Ind.; BILLIE FOSTER, W. S. Sweeney, Elwood, Ind.; HUB SMITH, E. E. Smith, Cambridge; ADA DUGAN, Cliff Todd, Mont-

gomery; BARON BOY, G. P. Wetherell, Junction City; FERNDAL, E. N. West, Hobart, Ind.; LELAND ONWARD, John A. Wilt, Hillsboro, Ind.

HORSE NOTES.

The trotting mare, May Tell, by Actell, 2:08 1/4, reduced her record in a winning race at the Ohio state fair to 2:22 1/4. She is being driven by Trainer Willoughby, of the Oak Lawn Stock Farm, Xenia, Ohio.

The fast pacing mare, Beatt Kennedy, 2:12 1/4, by Jim Kennedy, 2:09 1/4, is pretty good these days, and may be seen in Lima next week. After winning the 2:12 pace at the Ohio state fair she was shipped the same night to Dayton, and was taken off the cars thirty minutes before the free-for-all was called the next day. Notwithstanding the fact that she had had no rest, she went out and won two heats, all that was raced that day, and the next day came back and easily won the last heat, stepping to a mile right at her record. This mare was pretty

well "knocked" by every horseman who raced against her, and was generally regarded as a rank "quitter," but if she will "stop" a whole lot of trainers had better train their horses to stop the same way. She is driven by Charles Slaight, of Sabina, Ohio, who owns a half interest in her, the other interest being owned by a gentleman at Leesburg, Ohio.

A. N. Brady is a very wealthy New Yorker, one who does not race horses for financial gain, but for the pure love of the sport. Last November he paid \$10,000 for the pacing gelding, Morning Star, 2:04 1/2, this sidewheeler holding the world's amateur race record to wagon, (2:03), and who has won many championship trophies at amateur meets.

We have an idea that the weather clerk looks a good deal like Mr. Hyde when he is having one of his fits.

George G. will on Tuesday, the first day of the meeting, go in a trial to break the world's record on a two lap course and lower the local record for trotters, now held by Ashlandford, the great stallion in the stable of W. A. Stout, and made in the race here last July against Cash Jr. and others. Previous to that the track trotting record had stood at 2:14 1/2.

The Lima Driving Park company will present Mr. Tanner with a very handsome solid silver trophy cup at the conclusion of the mile.

George G. is a breezy-looking bay trotting gelding, foaled in 1898, sired by Howard, 2:13 1/4, dam: Mabel by Junio, 2:22. He was bred by Wicks, Shum Stock Farm, Fresno, Cal. As a 2-year-old he sold for \$50, "developing speed remarkably fast" and "proving the best trotter raced on the Pacific Coast, in 1903, winning many good races, and taking a record of 2:12 1/4. The following spring he was purchased by A. N. Brady, a well-known and wealthy New York trotting enthusiast, the price paid being reported as \$13,000. The gelding was shipped to "Doc" Tanner at Cleveland in May,

GEORGE G. (2:05 1/4) to Wagon, with "Doc" Tanner, His Trainer.

WONDERFUL CAREER OF UNBEATEN DAN PATCH.

It is no exaggeration to state that the horse that occupies the largest space in the public eye of both continents today is the unbeaten Dan Patch, 1:55. As was once observed of English Ellipse, he is a "horse above ordinances." What horse in the world, thoroughbred or light harness, that has broken so many records, nearly all his own?

Chronologically speaking, his history is summed up as follows: Brown horse by Joe Patchen, 2:01 1/4; dam Zella, by Wilkesberry, 2:30, foaled in 1896 at Oxford, Ind.; bred by D. A. Messner, Jr.; appeared first on the turf in 1900; won all his races—four and made a record of 2:16; won all his races in 1901—twelve—\$13,800 in stakes and lowered his record to 2:04 1/4. March, 1902, purchased by M. E. Sturges, New York City, for \$20,000; August 2, 1902, paced in 2:00 3/4 at Columbus, Ohio; August 23, 1902, paced in 2:00 1/4 at Readville, Mass.; August 29, 1902, paced in 1:59 1/4 at Providence, R. I.; September 23, 1902, paced in 1:59 1/4 at Readville, Mass.;

1904, and later turned over to Ed. Geers, who raced him down the Grand Circuit for two seasons, proving a prominent factor in many sensational races and lowering his record to 2:05 1/4 at Syracuse, N. Y., in September, 1905. During the present season George G. has been in Tanner's stable and was saved over for amateur contests. At the Pittsburgh Inter-City matinee, August 29th last, he won the Gold Challenge Cup, representing the amateur trotting championship of the world, winning in straight heats, both miles in 2:09 1/4. On September 4th he was seen at the Boston Inter-City matinee, trotting an exhibition mile and lowering the wagon record over that track to 2:07 1/4. At the Cleveland matinee held on September 15th he lowered this to 2:07.

At the Ohio state fair there were nineteen starters in the 2:40 pace and strange to say there were no accidents. The starter, however, had his troubles, and in catching them at the finish made some blunders that may be called excusable. However, the starting was about the worst seen at an Ohio race meeting in years, and it was freely commented upon that justice not merit had secured the starter his engagement.

THE NATION'S WEALTH.
The last generation has been remarkable for its development of colossal private fortunes. It is well within a reasonable estimate to say that the combined fortunes of six great capitalists of today, fortunes which have been the product of the enterprise of the last 30 years, make a total of \$1,100,000,000. In 1870 it would have been difficult to have discovered in this country six private fortunes which would have aggregated \$250,000,000. This simple fact perhaps the most striking illustration which could be given of the extraordinary growth of wealth in the United States in a few hands. It should not be forgotten, however, that the wealth of the country has in the same time increased from \$50,000,000,000 to \$101,000,000,000, and the per capita wealth from \$779 to about \$1254.—Wall Street Journal.

Those assembled for the banquet have words of praise for Mr. Shaw's effort to entertain and satisfy the hunger of all.

A Story of Ole Bull.
A curious tale of Ole Bull is told in a book on violins and violinists. It seems that in 1831, being then twenty years of age, the famous violinist wandered to Paris. The cholera was raging and Malthusian slaying. He went to hear her, and his landlord decamped with his possessions, including his violin. He was speedily reduced to extremity. During the last dinner that he was able to pay for he made the acquaintance of a remarkable man. To this stranger, Ole Bull confided his miseries. At the conclusion the stranger said abruptly, "Well, I will do something for you if you have courage and 5 francs." "I have both," said Bull. "Then go to Frascati's tonight at 10 o'clock, pass through the first room, go into the second, where they play pique et notri, and when a new table begins put your 5 francs on rouge and leave it there." Bull did as directed, and when his 5 francs had become 400 he took them up after an episode with a woman who attempted to take them. Red continued to win, and had left his money longer he would have won an independent sum. The stranger, who was present as his elbow, was Vidocq, the French detective, already a European celebrity.

Turkey's Way of Raising Revenue.
The land in all Turkey and her dependencies belongs to the reigning sultan and is only occupied at his will. It is divided among those who wish to cultivate it at a nominal rental of one-fifth of the produce, which goes directly to the crown. Three-fifths more are taken from the lessee on other pretexts, all for the maintenance of the government, the pasha in each district having the authority to lease the ground and collect the taxes, which may be in kind or money. If crops are short, they take four-fifths of all the man has in animals and even in household utensils, sometimes all his possessions, to make up the deficiency which Providence has withheld. Everything that can produce, be it a tree, beast, fowl, worm or the labor of a man and his family, is subject to the four-fifths tax. Those who toil at any labor or trade other than agriculture are taxed also pro rata according to their wages and must pay or go to prison.—Pearson's Weekly.

How to Remove a Corn; Try It.
Expose the corn and pass the finger tips of your right hand over it slowly and carefully, at the same time sending a vibration from the brain to the corn. If it is a soft corn 412 vibrations per second will suffice; if a hard corn, put on a forced draft. Repeat slowly, "I am now sending a current of thought force into my corn and so separating, deducing, disintegrating, rendering, splitting, sundering, splintering, snapping, dwelling, whitening, dispersing, dislocating, eliding, divorcing, pulverizing, slashing, eluding and dissecting it that presently it will pass away. Repeat it three times; then, with rising inflection, "Avant, avant, avant!" Finish by repeating the password: "The universe is mine. I am it." The corn will at first look extremely surprised, then wilt and fade beautifully from sight.—New Thought.

A Nice Distinction.
A well known Atlantic has a wife with a sharp tongue. Jones had come home about 2 in the morning rather the worse off for a few highballs. As soon as he opened the door his wife, who was waiting for him in the accustomed place at the top of the stairs, where she could watch his uncertain ascent, started upbraiding him for his conduct. Jones went to bed and when he was almost asleep could hear her still scolding him unmercifully. He dropped off to sleep and awoke after a couple of hours, only to hear his wife remark, "I hope all the women don't have to put up with such conduct as this." "Annie," said Jones, "are you talking again or yet?"—Kansas City Star.

Critics' Eggs.
The clam's eggs are carried by the mother on her gills. When there are fish in the water with them the mother clams discharge the eggs which soon hatch, but if there are no fish they carry the eggs until they decay. The reason of this strange behavior is this: When the eggs are set free in the water they soon hatch and the little ones swim about until they find some fish to which to attach themselves. They live for a time on the mucus of the fish and then drop off, sink to the bottom and form burrows for themselves. This curious semiparasitic life has no doubt a reversion to the habit of some ancient ancestor.

One Man's Wisdom.
Green—Who was it that said, "Let me make the songs of a nation and I care not who makes its laws?" Brown—I don't know the man's name, but he was a wise guy, all right. Green—Because why? Brown—Because it is possible to evade the laws, but one can't get away from the songs, especially when they become popular.—Chicago News.

The Price of Vanity.
"What because of that life guard who had forty-one medals for saving people's lives?" "The poor fellow fell out of a launch with them all on and the combined weight sank him."—Minneapolis Journal.

AMUSEMENTS.

To-night—"The Cow Puncher."
Saturday—George Sidney in "Busy Izzy's Vacation."

Heralded as the dramatic event of the season comes "The Cow Puncher" by Hal Reid to the Faurot Opera House, for this afternoon and evening engagement. It is under the direction of W. F. Mann. The author has taken a romance between a young Eastern girl and a cow puncher on her range for his story. The plot is deep and well founded. The dramatic situations have been carefully worked out and the comedy is bright, witty and refreshing.

When "York State Folks," the charming pastoral play, comes momentarily, it is sure to be one of the big theatrical events of the season. The piece and its players are popular with theatre-goers and it is always sure of a hearty welcome. The coming visit will be the farewell appearance prior to its tour in England, where it will open at the Savoy Theatre, London, September 5th, 1907.

John King who has appeared with Lew Dockstaer's minstrels for several seasons has a new song entitled "Shovel-in Coal" with which he has made an enormous hit.

The immensely popular "Buster Brown" is announced for early presentation at the Faurot Opera House. Here as elsewhere this great favorite will no doubt attract capacity audiences.

Jules Murry's Own Company, which will soon be seen here, is now making a final tour in "The Mimmy and the Humming Bird," with William A. Whitaker in the stellar role of "Jack Lumley," a part in which he has won a national reputation. Manager Murry will provide a new play for this favorite organization next season.

E. D. Stair, will offer his concoction of frivolity and refreshing musical festival, "Busy Izzy's Vacation" at the Faurot opera house next Saturday afternoon and evening. George Sidney will be seen in the leading characterization and it is needless to say that funny sayings, whirlwind dances and popular songs will be the predominant features. A large attractive chorus characterized the George Sidney offerings of the past three seasons, and the new piece has been fitted fully as advantageously.

WITH THE SPIRITS.
Tomorrow—Sunday Night at the Opera House.

Remarkable demonstrations in spiritualism are pronounced when Dr. Henry J. Arnold appears at the Faurot Opera House, Sunday night, September 30.

A test that has caused much talk and conjecture is Dr. Arnold's dematerialization feat. While the medium is talking to a committee from the audience that surrounds him, figures appear on the stage. After a minute or two they disappear from the stage and reappear in the audience.

While dematerialization is the medium's strongest feat he exhibits the usual phenomena, such as slate writing, spirit messages and rappings. A small admission will be charged.

A Copper Magnate's Way.
Miles Finlen, the rich Montana copper miner, visited some relatives in Bay City, Mich., recently. He attended services in an old wooden church, and while there a rainstorm came up. The roof leaked and some water fell on Finlen's neck. After the services had ended he asked one of the church officials: "Why in blazes don't you give people a decent place to worship in?" "I suspect it's because we haven't the money," was the suggestive reply. Next afternoon material for a new roof began to arrive in front of the church and Finlen walked into the pastor's study with a check for \$750. "Fix up your old roof," is all he said.—Chicago Inter-Ocean.

A Scientific Wonder.
The cures that stand to its credit makes Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of piles, it heals the worst Burns, Sores, Bolls, Ulcers, Cuts, Wounds, Chillsbites and Salt Rheum. Only 25c at H. F. Vorkamp's drug store.

The Church Bazar.
Dr. Henry Van Wyke, author, clergyman and professor at Princeton, was talking one day about the best way for churches to raise money, says the New York Tribune. Apropos of bazars, he said:

"There was a canny old Scotch minister who said one day from the pulpit with a dry smile:

"'Well, friends, the kirk stands up gently in need of silver, and, as we have failed to get it honestly, we must see now what a bazar can do for us.'"

of his sweater, ready for the contest
with the French champion.

The fact, also, that there were
quite a number of ladies in the audi-
ence testified to the confidence of the
public that the sport is to be clean
and honorable. For Akerman, his

opponent proved to be no match for
Athos in the mounted game, so long
as it was a case of sit still and wrestle
and was soon unhorsed in two
straight falls.

The second feature of the program
was far more interesting than the
first, being a straight catch-as-catch-
can match between Athos' wife, pro-
fessionally known as Miss Lou Har-
ris, and Miss Kaufman, of Cincin-
nati. The women proved to be
wrestlers of no little ability and they
went into the contest with a vim and
determination that surprised and
pleased the audience. They know
how to play for holds and knew how
to break them when they were taken
and the contest was a lively one from
start to finish. Miss Harris was of
lighter build and showed superior
knowledge and greater skill and en-
durance than her opponent and won
the first fall in six minutes and forty
seconds with a hammerlock and sec-
ond fall. The second fall was se-
cured by Miss Harris in 5:46.

Athos Showed Skill and Speed.

On account of Athos' remarkable
development of the chest, arms and
shoulders, he appeared to be con-
siderable heavier than the local man
when he and Akerman appeared on
the mat and the audience was in-
clined to doubt his statement that he
only weighed about 140 pounds.
However, the match being at catch
weights, he could not be required to
weigh in and his statement had to be
taken for what it was worth. He
proved to be strong and fast and
possessed thorough knowledge of the
wrestling science but he had not been
on the mat ten minutes until it was
seen that Akerman was his superior.
He escaped repeatedly from some
dangerous holds and frequently se-
cured holds on Akerman that would,
with some men, be dangerous, but
Akerman was too skillful in escap-
ing to be in danger at any time and
after eighteen minutes of fast and
furious work, during which Athos
was twice injured, Akerman forced

testants and the audience, and he
took occasion at one time when some
question was raised by a spectator
about him ordering the men back
onto the mat when Akerman was the
underman and they had wriggled off
of the mat, that it was his purpose
and endeavor to promote clean sports
and especially clean, square wrest-
ling and that no one need have any
fear that he would be unfair to any
contestant whether he be a stranger or
the local man. For this speech,
Dr. Jones received the approval of
the audience in the form of a storm
of applause.

After the match last night Athos
admitted that Akerman was a great
wrestler but claimed that his own
chances for winning would have been
much greater if it had not been for the
injuries which he received during the
first few minutes of the contest.

The local man's next match will
probably be with either Alex Swanson,
the holder of the welterweight cham-
pionship title, or Fred Bartl, the speedy
Canadian whom Al failed to throw in
the match which they had in this city
early last spring. Akerman's manager
is in correspondence with both of
these men and articles of agreement
will probably be drawn for a contest
with one or the other in a few days.
Only minor questions of weight and
the time of weighing in remaining to
be agreed upon.

Little Bride, the former Lima horse,
won the 2:17 trot at Bowling Green
yesterday in a field of ten and took
a mark of 2:16 1/4, it being a seven heat
affair. Vance Nuckols with Italia won
a \$1,000 pacing race showing the fast
brown mare can turn a half mile track,
and undoubtedly making her favorite
in the pacing stake here next week.

ON THE GOLF LINKS

Westbrook Outing Club Is
Contesting With
Lima Today.

LUNCHEON AT THE CLUB

Dancing Party Will Aid In
the Entertainment
Tonight.

The Westbrook Outing club, with
ten strong golfists, arrived this morn-
ing on the Pennsylvania train, from
Mansfield, and were taken direct to
the club house of the Shawnee Coun-
try club, where they had a round be-
fore lunch, which was served at the
club.

The third of the inter-city matches
started at 1 o'clock, with Captain Nes-
mith in charge of the locals. Lima
has won one match, and has been de-
feated in the second, and this will be
the deciding contest of the three-
match series.

A dancing party this evening will
close the entertainment of the guests,
who are accompanied by their ladies
on this trip.

To George Houck, of this city, the
present coach of the Lima High
School team, too much credit cannot
be given for the magnificent work and
victory attained by the Lima boys
yesterday. He has worked untiringly
and efficiently with the high school
hads and the value of his coaching is
proven by the victory which was won
after Lima had suffered so many de-
feats at the hands of the Piqua lads.
It is to be hoped that the High
school team will be able to retain the
valuable services of Mr. Houck.

ing to severe inflammation of the
throat and congestion of the lungs,
three doctors gave me up to die when,
as a last resort, I was induced to try
Dr. King's New Discovery and I am
happy to say, it saved my life."

bronchitis, tonsillitis, weak lungs,
hoarseness and La Grippe. Guar-

OFF OF THE DERAIL

Engine and Thirteen Cars
Went Near the T. & O.
C. Crossing.

WHITE LIGHT SHOWED
And the Engineer Supposed
the Interlocker Was
Thrown.

A gravel train on the C. H. & D.
road was wrecked near the T. & O. C.
crossing at Wapakoneta last night
about 12 o'clock, necessitating the
calling out of the wreck train and
crew from this city. The gravel train
was being pulled by engine No. 375
and was approaching the T. & O. C.
crossing at a moderate rate of speed
when the engine ran off of the derail
which protects the crossing and was
followed by thirteen gravel cars, all of
which turned over on one side in the
ditch. The engine and most of the
brakemen escaped without injury by
jumping.

The wreck was caused by one of
the target lamps at the crossing being
out. The engineer could see no signal
except a white light as the engine ap-
proached the crossing and he supposed
the interlocking crossing was placed
for the C. H. & D. until his headlight
showed upon the open derail and it
was then too late to stop. No serious
damage was done to the rolling stock
and the wreck crew had the wreck
cleared by noon today.

Cured Hay Fever and Summer Cold.
A. J. Nussbaum, Batesville, Indiana,
writes: "Last year I suffered for
three months with a summer cold so
distressing that it interfered with
my business. I had many of the
symptoms of hay fever, and a doctor's
prescription did not reach my case,
and I took several medicines which
seemed to only aggravate my case.
Fortunately I insisted upon having
Foley's Honey and Tar in the yellow
package, and it quickly cured me.
My wife has since used Foley's Honey
and Tar with the same success."

ner.

MAKES NEW RECORD.
"Davy" Johnson Beats Six Races and
Wins Eighty Thousand Dollars.

(New York Herald.)
In all his years on the turf—and
they are not few—D. C. Johnson, en-
canted by his friends "Davy," who fre-
quently has startled the sporting
world by his meteoric plunging, never
has had a day such as fell to his lot

at Grayson and today when he be-
at six races and won each bet, his
winning reaching the total of \$80,000.

It was a matter of speculation as to
whether this record had ever been
equaled by a better before. There
have been innumerable instances of
great sums won on single races, but
few, if any, where a man had success-
fully picked six winners in as many
races, backing each one. And it was
only by a slight margin that Mr.
Johnson did not make his record
even, for there were that many races
on the program but he did not make a
play upon the steeple chase, though
the horse he favored won.

It seems only the other day that
continued misfortune caused Johnson
to transfer all his stable to Lucien Q.
Apley, including the great sprinter
Roseben. He had lost a not incon-
siderable fortune, but no doubt it was
entertained by those who knew his re-
markable recuperative powers that he
would soon again be on his feet fi-
nancially.

It was Roseben a fortnight ago,
added to a stake which he won at
good odds, that gave the plunger his
new start. With the money he won
he squared all his "markers," or
racing debts, and then set about re-
pairing his shattered purse. In spite
of the heavy setbacks he had received
Johnson lost none of the gameness and
nerve that have been such striking
characteristics of his play. It was
these qualities that enabled him to es-
tablish his record of yesterday.

It was on the second race, the
steeplechase, won by Expansionist,
that Mr. Johnson did not bet. He won
on Keator, in the first, at odds of 6 to
5 and even money; on Salvadore, at
about the same odds; on Running
Water, at even and 4 to 5; on Astron-
omer, at 3 to 5; on Senator Clay, his
own colt, at 8 to 5 and less, and in the
last on James Crawford, at about 7 to
5. It was on Keator and Senator Clay
that he won his largest wagers.

The news of his success soon spread
about the track and he was sur-
rounded by friends, who overwhelmed him with
congratulations, for he is popular
among the men who make up the
racing sport.

He was disinclined to talk of his
winnings in detail, although admit-
ting that he had had an unusually
successful day.

"I would be quite willing to give the
entire day's winnings," he remarked,
with a smile, "if it would insure the
victory of Roseben over Lady Amelia
in their match race next Thursday,"
and those who heard him had no doubt
of his sincerity, for he is deeply at-
tached to the "big horse," as Roseben
is affectionately called.

Sunday Afternoon. What Will You Do With Them?

The above questions are no joke to hundreds of young men in Lima, and while they always do something Sunday afternoons they must do that yet it's safe to say that they are not always satisfied with the results or the effects. The young man away from home whose only place of abode is the "comfortless" boarding or "rooming house" (some exceptions, but few) is going somewhere, and it is where he finds company, too, either good or bad, but naturally he chooses the good. If he can find it conveniently. Now, the Sunday afternoons at the Young Men's Christian Association are being planned to fit just this class of men. The gatherings will be informal, and everyone will be made to feel at ease and at home. The building is open at 2:00 p. m. when men may come and enjoy papers, magazines, or books, or engage in pleasant conversation and general sociability until 3:30 when an informal address of not to exceed thirty minutes will be delivered by the best available talent in and out of the city, after the address and a few numbers of instrumental or vocal music, those present will be divided into several groups for the open discussion of vital topics connected with the life of Christ.

Prof. John Davidson will deliver the address Sunday, September 30th, taking the theme of "The Study of the Bible." There is no more popular

speaker in the city than Prof. Davidson, and none can handle this theme in a more interesting and practical manner. If you haven't heard him, be there. A quartette composed of Messrs. Assenheimer, Rolla Miksell, Ed. Miksell and Fred Calvert will render special music for the occasion. Plan to spend an hour or two at the Association Sunday, and if you're not treated right or don't like it—try it again and if it's no better quit going. Dr. J. H. Bomberger, of Cleveland, is to deliver the address Sunday, October 1st, on the topic "Three Men."

To Be Launched Monday.
The big membership hustle in the Boys' department of the Y. M. C. A. which has been in process of formation for some time will open with a rush Monday, and some warm times may be expected when the 150 boys of the department let loose upon those boys between 11 and 17 who are not now in the Association. To make the hustle more interesting two sides will work against each other, intermediates vs. Juniors. This campaign will last 45 days and at the end of that time a big spread will be given to which each new member and each one securing a new member will get a place. The two groups have been organized with Dr. D. R. Cantinney, leader of the Juniors, and Mr. H. A. Stoncker, leader of the Intermediates. Every boy in this department is invited to get into this hustle and help to make things fairly hum around the Association this winter.

Saturday night social times will be one of the popular things for boys this season. Keep your eye on the indicator and learn what there is doing for the boys. The gymnasium class schedule for the boys classes will be as follows:

Intermediates.
Tuesday and Thursday, 6:45 to 8:30 p. m.; Saturday, 2:30 to 4:00 p. m.

Advanced Juniors.
Thursday, 3:56 to 5:00 p. m.; Saturday, 10:15 to 11:00 a. m.

Elementary Juniors.
Tuesday, 8:45 to 9:00 p. m.; Saturday, 8:45 to 10:00 a. m.

The boys' room will be open every day but Wednesday from 3:30 to 6:00 for Juniors, and from 3:30 to 9:00 for intermediates.

Good games, excellent reading matter, etc., always ready for use. Boys intending to join should do it now and get into the fun right from the start. Swimming is a very useful accomplishment and it also affords much enjoyment and this is the only place where swimming can be indulged in the year round. Water is always heated to swimming temperature.

Torture By Savages.
"Speaking of the tortures to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. Z. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures Liver Complaint, Dyspepsia, Blood Disorders and Malaria; and restores the weak and nervous to robust health. Guaranteed by H. F. Vortkamp, druggist. Price 50c.

SUNDAY EXCURSION TO BAINBRIDGE, O.
On Sunday, October 7th, the Detroit, Toledo & Ironton Ry. will run an excursion to Bainbridge and return. Special train will pass Lima at 7:00 a. m. Excursion tickets will also be sold between intermediate stations at one and one-half fare for the round trip.

Returning special train will leave Bainbridge at 5:00 p. m.

A cold taken at this time of the year is generally hard to get rid of but it will not be able to withstand Bee's Laxative Honey and Tar. That will cure all colds, coughs, croup, whooping cough, etc., by driving them out through the bowels. If you have a cold, try it and if it cures get your money back. No optates. Sold at H. F. ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate
Cures Chronic Constipation, Stomach and Liver Trouble

Stimulation Without Irritation.
ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

Constipation.
ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

Why ORINO is different.
ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Biliousness and Sick Headache.
Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Clears the Complexion.
ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

OUR GUARANTEE
Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

LOSING DOWN

Ill in Nearly All the Pools.

Illinois the Only Field That Is Increasing Its Production.

RENTON ROCK FIELDS

Have Lapsed Into a Period of Inactivity Awaiting the Result.

Summary of Field Work in All Pools For the Past Week.

There is a general decline in oil operations all over the country, and a change for the better can be expected for some time to come, or until conditions are more thoroughly settled in the various fields than they are at the present time. The week just closed was an uneventful one in developments in all fields, with the exception of the new Illinois field which shows a remarkable healthy production, so much so that the pipes can handle but little of the product. The drill has quieted down here there of late, and a revival will hardly take place until the trunk pipe is building from Clarke county, to Ontonagon, Ind., is completed when the chances will be more favorable for the disposal of the large growing production. In the old producing regions from the Trenton limestone beds east, a let up in activity is in evidence in nearly all districts. In the older regions the scarcity of drilled territory has caused operators to abandon development work earlier than has been the custom for many years. Many of the operators are pining toward the Canadian field for investments on account of the high price of the product, and the bonus paid by the government for the crude produced. Close to 50 strings of drilling tools are now at work in the fields adjacent to Chatham and Leamington, and some very fine wells are being drilled in the latter territory. The supposition here is that the Canadian territory does not hold up, but one should be satisfied on that score for the wells in the Petrolia field have been pumping steadily for nearly forty years, and at the time the Pennsylvania fields were in their earliest prime, these small Canadian strippers have made fortunes for their owners, and as high as 375 wells are connected and pumped from one central power, and this alone makes a large saving.

The more Eastern fields, of West Virginia and southeastern Ohio blotted with a few gushers that have not more than passing attention those fields during the past few years. Tyler county, West Virginia, has to fore with a couple of 100 barrels; Marion county, with one good for 258 barrels and Harrison county, with one good for 340 barrels, and another at 150 barrels, and is glory enough for one week. In southeastern Ohio, in Monroe county, a well was drilled that produced 1200 barrels, now other has been found that produced 9 barrels and another that started the 100 barrel clip. The Ohio and Indiana fields failed to produce any wells above the aver-

age, while Kentucky has one good for 110 barrels.

Illinois appears to be the Mecca for the producer, for gushers galore are being found there, and the production is increasing at such an alarming extent that the wells of late are only being drilled to the sand, and will be left in that shape until the pipe lines are able to care for the product.

The wells for the week were distributed among the various fields as follows:

Fields	Com.	Pro.	Dry.
Indiana	28	741	3
N. W. Ohio	43	739	6
S. E. Ohio	24	1060	8
West Virginia	42	1785	5
Kentucky	7	232	2
Illinois	102	11700	28

Total 246 16255 52
The Texas fields are declining so in production, that oil is now being shipped from the Oklahoma oil fields to the refinery at Corsicana. This may help out the rapid growing Territory oil regions.

Oil in Illinois.

Casey, Ills., Sept. 29.—Considerable work is still doing in the shallow fields of Casey, and while the wells are not as prolific as those in the deep sand pools in Crawford county, the wells cost much less than half.

In Casey township, Clarke county, Bell & Snowden's Nos. 1 and 2, on the H. J. McDaniels farm, in the northwest quarter of section 23, produced 100 barrels each. The Hudson Oil Co.'s Nos. 12 and 13, Wm. Diehl farm, section 15, pumped 2 and 5 barrels respectively. D. C. Davis' Nos. 4, 5, 6 and 7, McDaniel heirs farm, in the northwest quarter of section 11, pumped 50, 25, 20, and 20 barrels respectively. His No. 2, on the Anna McDaniels farm, in the southwest quarter of the same section, pumped 20 barrels. The Mars Oil & Gas Co.'s Nos. 2 and 3, Jefferson McCrory farm, in the southwest quarter of section 14, pumped 40 and 30 barrels respectively. Same company's Nos. 5 and 7, Edward Whitehead farm, in the same section, pumped 20 barrels each, and No. 3, M. J. Kite farm, section 23, pumped 25 barrels. Same company's Nos. 4, 5 and 7, Joe Barman farm, section 15, pumped 30, 17 and 22 barrels, while No. 6 was a dry hole. Same company's Nos. 5 and 6, James Rush farm, section 25, pumped 5 and 7 barrels respectively. The Casey Natural Gas & Crude Oil Co.'s No. 13, C. Fuqua farm, section 18, pumped 20 barrels. The Ohio Oil Co.'s Nos. 4, 5, 6, 7 and 8, Wm. C. Green farm, section 7, pumped 30, 10, 10, 10 and 10 barrels respectively.

In Johnson township, Clarke county, the Benoum-Trees Oil Co.'s Nos. 1, 2, 3, 4, 5, 6 and 7, J. P. Bennett farm, in the southwest quarter of section 23, pumped 30, 75, 35, 50, 50, 50 and 50 barrels respectively when connected to the tanks. McCoy & Wilson's No. 3, M. A. Bailey farm, section 26, produced 100 barrels. The Mound City Oil Co.'s Nos. 1 and 2, Chas. Phillips farm, in the southwest quarter of section 2, produced

75 and 100 barrels, and Nos. 1 and 2, Matthew Smith farm, in the northwest quarter of the same section, produced 100 and 125 barrels. The Jameson Oil Co., of Cochrane, Chaudal & Co.'s Nos. 1, 2 and 3, David Claypool farm, in the center part of section 11, produced 150, 100 and 100 barrels respectively. Same company's No. 2, Lee Staley farm, in the northwest quarter of section 26, produced 100 barrels. Walter Henning, trustees, No. 2, Levi and Grover Staley farm, section 26, produced 75 barrels. Duff & McClintock's Nos. 1, 2 and 3, David Claypool farm, section 11, produced 50, 50 and 50 barrels.

In Parker township, Clarke county, the Ohio Oil Co.'s No. 20, on the Young farm, section 17, pumped 25 barrels. Same company's No. 2, D. Lee farm, section 18, pumped 235 barrels, and No. 9, Joseph Phillips farm, same section, pumped 50 barrels. The Ivesdale Oil, Coal & Gas Co.'s Nos. 8, 9 and 10, W. B. Berkley farm, section 7, pumped 25, 40 and 40 barrels respectively.

The test well drilled by D. C. Davis on the D. A. Thornburg farm, section 28, Martinsville township, Clarke county, proved a duster.

The test well drilled by the Benoum-Trees Co., on the Sam Lingenfelder farm, in Johnson township, Clarke county, was a duster. H. E. Wilcox and others have a good looking producer in a test on the Lewis & English farm, section 2, also one on the D. Howard farm, same section, which is No. 2 well. The Jameson Oil Co.'s No. 7, L. Weaver farm, section 25, looks good for 50 barrels.

A Few Ohio Wells.

In Marion township, Hancock county, the Ohio Oil Co.'s No. 12, John Blah farm, section 2, pumped 6 barrels.

In Sandusky township, Sandusky county, the Ohio Oil Company's No. 24, on the D. Hensel farm, section 17, pumped 12 barrels, and the Rich Oil Co.'s No. 7, A. Miarer farm, section 80, pumped 40 barrels.

In Liberty township, Van Wert county, the Monroe Oil Co.'s No. 2, J. Rogers farm, section 21, pumped 5 barrels, and McDonald, Ahrens & O'Dell's No. 11, A. Miller farm, section 27, pumped 20 barrels.

In Jennings township, Van Wert county, the Mohawk Oil Co.'s No. 2, M. Burnett farm, section 29, pumped 15 barrels.

In Benton township, Ottawa county, the East Side Bank Co.'s No. 4, J. Myerholtz farm, section 16, pumped 20 barrels.

In Allen township, Ottawa county, Van Vleck, Graham and Van Vleck's No. 2, J. A. Busch farm, section 6, pumped 10 barrels, and John Weber's No. 3, H. B. Ryan farm, section 3, pumped 35 barrels.

Late Indiana Wells.

In Chester township, Wells county, the Producers Co.'s No. 15, C. B. Abshire farm, section 24, pumped but 3 barrels.

In Center township, Grant county, the Ohio Oil Co.'s No. 7, C. J. Howell farm, section 9, pumped but 8 barrels.

After five minutes of play Simmons, was pushed over the line for the first touch-down and he then kicked goal, which was needed in the end, for in the second half Piqua scored but failed at goal. Lima, 6; Piqua, 5. Lima is scheduled for a game at Findlay on October 20th.

Mrs. D. R. Cook read a set of resolutions returning thanks to all who had aided in making the convention a success.

The evening session.

Miss Counselor and Miss Johns, of Elida, with their duets, and Miss Parkison with her beautiful rendition of "Jerusalem," added much to the pleasure of the evening.

Mrs. J. M. Patterson, of south Lima, in charge of the county medal contests, in a charming manner explained the mission of this branch of the work. She stated it was a continuation of the plan devised by Demorest, and during the last year 150,000 had participated in the contest; each one being thereby enlisted in the work of redeeming the world from the drink curse.

There were four contestants: Miss Lala Fletcher, 604 south Pine street; Miss Corrine Myers, 734 south Broadway; Miss Frankie Bacom, Harrod, and Miss Mae Johnson, of Lafayette. Rev. J. J. Swanson, Rev. E. E. Young and Dr. W. E. Hoyer were the judges, and their decision was that Miss Myers was the winner on points. Rev. Swanson announced the judge's decision and presented the fortunate young lady with her golden trophy.

NATIONAL BISCUIT COMPANY

R. T. GREGG & CO.

THE EMPLOYEES

Of C. H. & D. Co.'s Car Department

Win First Blood In Their Litigation Against the Company.

JUDGMENT IS TAKEN

Against Receiver Harmon On An Action In Justice Court.

Men Who Were "Shorted" Sue the Company For Their Money.

This morning, Justice E. G. Dempster heard the testimony in a civil action which was brought in his court against Judson Harmon, as receiver for the Cincinnati, Hamilton & Dayton R. R. Co., by Wm. Gerstenlauer, a car repairer and carpenter who has been employed at the local shops of the company. The C. H. & D. Co. did not defend itself in the action and judgment was taken for the amount sued for by Mr. Gerstenlauer, that sum being eleven dollars and twenty-five cents.

The suit of Mr. Gerstenlauer is another outgrowth of the recently unearthed alleged scandal of "padding" pay rolls at the C. H. & D. shops, for which three criminal actions were instituted by the company against as many employees in the car department of the local shops. The local officials of the C. H. & D. company claimed that a number, perhaps half a hundred, of the employees in the car department had been overpaid through the "padding" system and in order that the company might be reimbursed for the amounts overpaid, the men were "shorted", on their more recently issued salary checks. To this action, most, if not all, of the men demurred, claiming that they were entitled to full pay for the time they were employed by the hour or for the amount of piece work done under the piece work schedule. The employees who had been "shorted" recently joined hands in their protest against the "shortage" system and to make a test case, the action of Mr. Gerstenlauer against Receiver Harmon was brought by Attorney Frank Downing, in Justice Dempster's court. Service was taken on the proper representatives of the company and the action was set for a hearing before Justice Dempster this morning. The company's counsel failed to appear to defend the company's interests at the hour set for a hearing and judgment was awarded the plaintiff, who showed by the amount paid him by the company for a month's services and by time records and piece work credit slips that he was entitled to have received \$11.25 more than he had been given. The result of the action brought by Mr. Gerstenlauer may precipitate the filing of about fifty similar suits by employees of the car department which are now in the hands of the employees' attorneys.

PUSHING THE WORK

Three Locomotives Engaged on the Lima-Toledo Line.

ALONG IN NOVEMBER

The Road May Be Completed For Service North to Leipsic.

The Lima & Toledo Traction company is engaged in rapidly pushing the finishing work on their line north. Three locomotives are aiding in the work, and service now being maintained with but one car between here and Ottawa, is irregular. The grade is ready as far as Leipsic, and the road practically completed to a point south of the D. T. & L. tracks out of Leipsic. It is expected the line will be completed entirely by November first, when regular traction cars and bi-hourly service will be inaugurated.

J. A. Bendure, formerly general manager of the Lima Electric Railway & Light company, is here from Buffalo engaged in packing his household goods for shipment to that city, where he will make his future home. By his removal, the Lima Progressive Association loses one of its most active hustlers, and Lima loses a good citizen. Mr. Bendure is now connected with a heating company, engaged in installing city heating plants from central plants. He has just completed a plant in a New York state town.

W. F. Carter, district passenger agent of the Lake Erie & Western, was in the city this morning from his home in Fremont, and was receiving congratulations all around from his friends. Mr. Carter took it as a high compliment, the splendid "getaway" the boys of the Lake Erie gave him on his wedding day, even though he was forced to carry a banner.

Resisting Judgment.

Columbus, O., Sept. 29.—The supreme court has heard personal injury cases in which electric railways are the defendants. The Cleveland Electric Co. is resisting a judgment in favor of John Scranton for \$650, and the Dayton and Troy Electric Co. is held by the lower courts to pay \$4,000 damages to Burrell Bannell.

New Machinery Installed.

The C. H. & D. has received a new forty horse-power air compressor which is to be installed at the local shops of the company to furnish air power for the operation of pneumatic tools and hoists.

The machine was purchased from the Chicago Pneumatic Tool company, through that company's vice president, Mr. Charles Walker, who, by the way, was at one time master mechanic for the C. H. & D. at the local shops a number of years ago, under C. H. Cory when the latter was superintendent of motive power.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well for the information of thousands of people who like to know all about a good thing we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. EXPRESS TRAIN

On Pennsylvania Dashed Into Passenger.

The Dead Resting on Bank Presented a Gruesome Spectacle.

AIR FAILED TO WORK.

Dead Number Two With Many of Injured Certain to Die.

"It Was Simply Murder," Was the Expression of an Eye Witness.

Philadelphia, Sept. 29.—Two persons were killed and probably twenty injured in a frightful rear end collision on the New York division of the Pennsylvania railroad near Eddington, Pa., 19 miles north of here at 9:05 a. m. Refusal of air brakes to work is given as the cause of the wreck. The express train which left Long Branch at 7:10 a. m., for Philadelphia, had trouble with the air brake on the smoker. It locked and after trying to get to Philadelphia without holding up the train, it was finally necessary to stop at a point near Eddington. The train was a heavy one, made up in the following order: Engine, express car, three Pullmans, smoker, four day coaches. While the train crew were struggling with the refractory brake, the express train which left New York at 7:30 o'clock, came thundering around a curve a short distance from where the Long Branch train was standing and crashed into its rear. The force of the impact was terrific. The rear coach was telescoped into the coach ahead and that in turn was "hired" off its trucks and turned half way through the third coach. The fourth coach was also badly battered. The air brakes on the smoker being locked, the car was almost immovable. It is due to this fortunate circumstance that there was no further damage and loss of life. Had the smoker been free it would undoubtedly have crashed into the Pullmans.

Dr. Stroupe, of Eddington, was soon at the scene of the accident. He sent for help in every direction and organized a temporary hospital corps. When he arrived, the bodies of five dead had already been removed from the wreck, four of them being women. Those killed were fearfully mangled. The bodies were stretched out side by side on the railroad bank and they presented a gruesome sight. Dr. Stroupe devoted his attention to the injured. He afterward reported that nearly all of those he examined will lose one or both legs as a result of their injuries.

The engineer of the New York Express, who, with his fireman jumped from the engine and escaped injury, lingered about the wreck in a hysterical condition. He declared that the signals were properly displayed but his air brakes refused to work.

The dead are: MRS. MARY O'MALLEY, Philadelphia.

MRS. WM. CONNELL, had employment, believed to be from Philadelphia.

In the hospitals here are: Miss Hale, colored, Atlantic City, N. J., will die.

Mrs. Marg Grofin, will die.

Mrs. Cochran, Philadelphia.

C. M. Caswell, Washington, badly contused.

H. Hoppe, of Gloucester, N. J., was a passenger on the first train with his wife and two sons.

"It was simply murder, that's what it was," exclaimed Hoppe. "I saw the whole thing. I was on the first train and it had been standing on the track for about 35 minutes. There was a siding near but they did not put us on that."

"About a square behind us was the signal located near a curve. I got out of the car to light a cigar and I noticed the danger signal was up, but the tower is at a curve. Even if the engineer of the train did see it, he did not have time to stop."

"If the flag man had only walked a couple of hundred yards up the track, beyond the curve, everything would have been all right. The express would then have had time to stop before doing any damage."

"When the second train came spinning around the curve I saw it coming but did not think it was on the same track as ours. Then I saw the engineer had put on his brakes hard, but it was no use. In a few seconds the train crashed into the rear end of the one standing, telescoping the cars."

"The confusion was something terrible, everybody was trying to get out of the cars and screaming. Two

dead were taken from the car we were in while we were there."

Trenton, N. J., Sept. 29.—Four of those injured at the accident were brought to this city. They are:

Elizabeth Brown, colored, Rahway, N. J., skull fractured; Miss Elizabeth White, Trenton, leg broken, Mrs. Mary R. Campbell, Baltimore, scalp wound and body badly cut; Mrs. Archibald Maddock, Trenton, injured internally. All were passengers on the Long Branch Express.

The coroner at Bristol, Pa., reports that seven persons were killed and that two bodies were brought to the Bristol morgue. Neither had been identified. The remaining five bodies will be taken to Philadelphia.

Henry T. Caulett, of this city, was a passenger on the New York express. He had a talk with an engineer of his train after the collision. The latter said that the signals of the first train had been properly set and that the failure of the second train to stop before the collision was due to the refusal of the brakes to work.

TEARS AND FLOWERS

Were Mingled at the Funeral of the Late Miss Mary Baker.

LAST RESTING PLACE

Was Reached in Gethsemani Cemetery Yesterday Afternoon.

The funeral of Miss Mary Baker, of Ada, which took place from St. Mary's church at that place, yesterday, was attended by a large gathering of sorrowing friends of the deceased young girl. Miss Baker was universally popular and beloved by all who knew her. Her sweet and lovable character endeared her to all who had the good fortune of knowing her. She was a talented musician and the possessor of a sweet voice and she will be greatly missed in the choir of St. Mary's church of which she was a member. In the funeral sermon, delivered by the Rev. James Ryan, of Kenton, a beautiful eulogy to her memory was delivered. His discourse was most touching and both old and young sobbed aloud as Miss Ida LaChance, of Kenton, sang at the conclusion of the sermon. "Bye and Bye, We Shall Meet Again."

The funeral cortege reached this city at 12:30 and services were conducted at the grave by Father Ryan, who accompanied the cortege to Gethsemani cemetery where the body was tenderly laid to rest amid large wreaths of flowers which covered the casket.

The pall bearers were: Thomas E. Shanahan and Daniel Kelly, of Lima; and John Quinn, Leo Quinn, Joseph Kelly and Emmet Travis, of Ada. Relatives and friends present at the solemn services from abroad were: Mrs. Charles Letteri, Mrs. Barney Pharrson and the Misses Mary Riddle and Katharine Engle, of Columbus; Mrs. Ward, of St. Mary's; R. G. Shanahan, of Delaware; Mrs. J. E. LaChance and Miss Ida LaChance, of Kenton; Mrs. J. C. Holland, of Topeka, Kansas; Mrs. Nora Schuster, of McGuffey; Miss Mary L. Hannon, of Toledo; John W. Shanahan and family, Thos. E. Shanahan, Miss Flynn and Mrs. T. A. Collins, of Lima.

SCHOOL TAXES

Take the Bulk of Cash Paid to County.

Education of the Youth Requires a Quarter Million.

WHERE THE CASH GOES

That You Pay to Uncle Tommy Twice During Each Year.

News of the Courts and the Routine of the Offices.

Few people realize when paying taxes for what purposes the money is used, and realize that the education of the youth of the land requires the bulk of the moneys paid into the county treasury twice each year through the window to Uncle Tommy Jones.

The tabulation of the tax duplicate has just been completed by Deputy Mack Myers in the auditor's office, and has required several weeks. It shows a total valuation for tax purposes in the year 1906, of \$26,447,039.

For education alone is required the sum of \$223,458. 43 of the total taxes levied, which amount to \$741,870.57. The other taxes go as follows: County tax, \$68,176.67; poor tax, \$10,488.74; bridge tax, \$45,388.19; building, \$5,244.35; indigent soldiers, \$7,079.86; road, \$59,916; general purposes, \$3,833.27; township tax \$39,594.57; city and villages taxes \$209,818.02; special taxes \$12,143.95.

The same duplicate also shows the total acreage in the county to be 253,740.60 acres, valued at \$7,179,580; while city and village real estate has an appraised valuation of \$8,577,080, with personal property listed at \$26,221,801. The dog tax in the county is for males, \$3,375; and females \$1,125 a head, \$544.

ARCHBISHOP GLENNON

Will Help to Dedicate St. Mary's Church Tiffin.

At the dedication of St. Mary's Catholic church, in Tiffin, next Sunday morning, a signal honor is to be conferred upon the parish by the presence of a no less church dignitary than Most Reverend J. J. Glennon, D. D., archbishop of St. Louis, who will deliver the sermon at the dedication exercises.

Archbishop Glennon is one of the finest pulpit orators in the United States and his reputation as a public speaker is world wide. He was one of the principal speakers at the Louisiana Purchase exposition on St. Louis day.

The dedicatory services will take place in the morning at 10 o'clock and the Rt. Rev. Bishop Hortsman, of Cleveland, will dedicate the church. With him will be Mons. Boff, vicar general of the diocese, and Mons. Houck, chancellor to the bishop. In the evening, Dr. J. T. O'Connell, of Toledo, will preach at the pontifical vespers. At the morning services Rev. Canon expects about thirty visiting members of the clergy and in the evening from fifty to seventy-five.

A large number of Lima people are going to Tiffin over the Western Ohio to attend the services.
